

Hydrogen thermo-initialization diagnostic: temperature trajectories

Effect of the thermo.linear initialization (magnitude and direction) on $T(t)$; identical Stage-1 kinetic model, seed 0.

••• Reference (Cantera, 50 pts) — Random init, Stage-2 10k — Cantera init, Stage-2 500 — Norm-matched random dir0, 500 — Norm-matched random dir1, 500 — Norm-matched random dir2, 500
